Dear Prospective Parents/Guardians,

We are thrilled to introduce you to the Smart Care Parent App &
Preschool2Me Parent App,

Smart Care is a cloud-based system that enables parents/guardians to access their tuition bill and look at daily activities.

Here are some exciting features we wanted to share with you:
Sign-In / Sign-Out Kiosk – This will allow you to use your mobile devices to seamlessly scan your children in or out, with a unique QR Code. We can also make you a Key Tag QR for an authorized person (such as a grandparent or babysitter that picks up or drops off frequently) to scan at the Kiosk, or we can assign you a numerical passcode to use at the Kiosk.

Mobile Features –Check communication notifications and view billing account information, all on the Smart Care Parent App! On the Preschool2Me App you can view your child's daily report for the day.

Manage Billing/Tuition – View and pay your tuition bill by Venmo, Zelle, check or cash. **We do not subscribe to the Smart Care billing feature.**
When you pay your tuition, Michelle will post it into Smart Care and you will automatically get a receipt for the payment.

What's next? If you decide to join the Bright Futures family. You will need to follow these steps. Please read and follow these 2 easy steps to start using Smart Care, today!

1. First you will receive an email from Smart Care Services to set up your account. Please make sure we have your correct email address on file.
*If you are unsure, please update your information with Joann.

2. Then download the Smart Care app on your mobile phone from the Apple app store or Google Play. It's that simple.

3. Next you will download the Preschool2Me parent pro app so you can receive your daily reports for your children. They are fun by the same company.
